

IMIDAZOLINE (IMI)
Tolerance

HIGH OLEIC OIL

SVS 350CH

SVS 350CH is designed for the Clearfield® production system. This hybrid is excellent for Northern growing conditions, thriving in extremely short growing seasons with unmatched standability due to height.

Agronomic Traits

- IMI herbicide tolerance
- DMR tolerance
- OR7 tolerance
- Consistent across soil types
- Exceptional disease tolerance
- Drought tolerance
- Very good center head fill
- Half turned head position

Characteristics

Maturity.....Very Early
Seed colorBlack
